

# C.A.R.E STRUCTURE

**Being a boarder at Harrogate Ladies' College means feeling happy, comfortable and having fun in your 'home from home'. As part of this experience, we encourage all of our boarders to take part in a wide range of weekend trips and house activities**

Our experienced boarding staff ensure there is a healthy balance of stimulating activities to keep our boarders entertained, whilst having enough time to relax. There are plenty of opportunities for the boarders to socialise and integrate at Inter-house events alongside house activities.

Boarders' trips take place at weekends; these are an ideal opportunity for the boarding community to come together, have fun, visit some of the best attractions, all whilst also fully immersing themselves in British culture.

The weekend trips are hugely varied; we ensure pupil input is carefully considered when designing the programme and ensure we implement and follow the C.A.R.E structure, which is explained below:

## Culture

Cultural trips allow our pupils to discover different ways of life. As boarders will come into contact with pupils with various nationalities and backgrounds, we aim to educate them not only on British culture, but also on the culture of their fellow boarders. These trips may include visiting traditional markets, museums, trying new foods and learning a language or dance.

## Adventure

Adventure trips can include visiting new places, whether exploring the area of Harrogate and beyond or taking part in an activity such as an Escape Room. Adventure-based trips allow for socialisation and integration whilst having fun.

## Recreational

It is important to balance academic studies with relaxation. Therefore, these trips and activities allow the boarders to relax and have fun. They could include pamper evenings, movie nights, going shopping, spending time with friends or an Inter-house Quiz.

## Educational

Quiz Nights, cultural evenings and visits to museums are among the activities and trips that encourage the boarders to learn new skills, knowledge or facts on a particular topic. They can enhance academic studies whilst participating in a fun weekend trip or activity with peers.
